A WOMAN'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuritis, pains, to write to her for a home treatment which has repeatedly cured all of these troubles. She feels it her duty to send it to all sufferers FREE. You cure yourself at home, as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. STUBBS, Box R, South Bend, Ind.

Hon. S. A. Shanklin and Mr. James Finch of Mayeville were here yesterday in attendance upon the funeral of Mrs. Hannah Marie Kehoe.

The ground in the county this morning was covered with an inch of snow.

A flock, probably a hundred, geese, passed over this city last night. They were flying low and going South.

Have you seen the window displays at J. T. Kackley & Co., one of brass goods and one of character dolls and life size, direct from the New York market.

The opening number of the High School Lecture course, the Wilbur Starr Quartette, was largely attended last night. The entertainment was exceptionally fine and every one present was charmed with the program rendered.

With the Church beautifully decorated with autumn-tinted leaves and products of the field and garden, and with specially prepared music for the occasion, this will be a very delightful service.

Miss Anna Gallimore, Field Secretary of the Woman's Foreign Missionary Society, will give an address at the hour of the morning service. SOLEMN OBSEQUIES

The largest gathering ever assembled in St. Patrick's Church attended the solemn obsequies of the late Mrs. James N. Kehoe yesterday morning, and in a manner by their presence attested the esteem and high regard in which the deceased was held. Rev. Father Cavanaugh delivered a discourse and eulogy in consonance with the beautiful Christian character of the departed, and a consolation and solace to the bereaved husband and bereft children. The remains were followed to their last resting place in beautiful Washington Cemetery by a large cortege of sorrowing relatives and friends.

WORKING WOMEN

**Here is a Helping Hand—A
Newton Woman's Experience.**

You know just how it is yourself—when you are tired out, perhaps a little run-down, and hardly able to drag around, life is a burden, you are irritable, nervous, depressed and every little task seems like a mountain.

Miss Katherine Burns of Newton, Mass., says—"About six months ago I was in a run-down condition and my blood was very poor. I had taken several medicines prescribed by physicians, but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I noticed a great improvement. I have taken six bottles and I feel as well as ever, and I would recommend Vinol to anybody needing a good tonic to build them up and make them strong." (We guarantee this testimonial to be genuine.)

I want to ask every woman who finds herself in this condition to try Vinol, my delicious cod liver and iron tonic, without oil, with the understanding that their money will be returned if it does not help them.

I know Vinol will create an appetite, aid digestion, make pure, rich blood, and in this way build up and strengthen the run-down, overworked, nervous system. You take no chances. Try it. John C. Pecor, Druggist, Mayeville, Ky.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone that fails to cure. Send for list of testimonials.

"KINNEY MAC'S"

Christening and Open House Reception a Grand Success—An Outpouring of Citizens Attest Their Fealty

That the public is in full accord with the new regime was fully attested yesterday afternoon by the stream of callers taking advantage of the invitation extended the public to visit and inspect Fire Department Headquarters in Washington Opera-house Building. Among the visitors were hundreds of ladies, connoisseurs in matters of neatness and utility of arrangement, each and every one of whom accorded unstinted praise in their observations of the general surroundings. The dormitory, with its five spotless white beds, tables, piano, chairs and rug-covered floor, together with the toilet and bath room, were marvels of perfection, as the fair ones expressed it. Then the lockers for each man and the slide-for-life pole—which the firemen use in a busy descent to the lower floor when a night alarm is sent in—were matters of moment to the inquisitive, yet welcome, guests.

Chief Edward Hite was in his element and was especially gracious in demonstrating the merits and intricacies of the marvelous "Kinney Mac" to the multitude of curious investigators.

About 10:30 a surprise alarm was sent in

from No. 47, corner Third and Bridge streets, and, although it was the first call the boys had, they responded in a jiffy and were off at a thirty-mile gait to the supposed scene of conflagration. Chief Hite was on to the call, but the boys thought it was a sure enough fire. They were there with the goods, however. As they passed up Third street in their natty uniforms and alarm gong sounding they presented the appearance of real firemen.

Mayor Lee and the City Council are to be congratulated in providing, as they have, fire protection that will protect.

The State Board of Underwriters and the principal fire insurance companies of the State had representatives here, and it is given out that a considerable reduction would be given in insurance rates.

For the satisfaction and edification of our citizens a demonstration will be made Monday night—either in Market street or some other section of the city—to show the merits of the machine and the efficiency of the Fire Department.

Mr. Harry C. Curran, representing the Standard Oil Company in this city, imbued with civic pride, has generously donated thirty gallons of oil with which to make a bonfire Monday night.

Gas Light Talks—No. 42.

Street Railway Power.

The sixth question asked by Mayor Lee is, as we told you yesterday, an important one and the only one we have considered, up to this time, in which His Honor can have any real interest.

His question is: The City of Maysville pays approximately \$8,000 to light its streets. How much does the Street Railway pay and which uses the greater amount of current?

In the first place, this company does not supply the Street Railway with current.

The Street Railway owns and keeps in repair its own generators, switchboard and all of its overhead transmission lines. The generators and switchboard are installed in our electric plant and this company furnishes the steam power to run the Street Railway's generators.

For this power and for the rent of the floor space occupied by its apparatus, the Street Railway pays us \$200 a month.

In addition, the Street Railway carries on its cars, free of charge, all employees of this company, when they are engaged on the company's business. And this is by no means a small item.

Now, as far as actual use of current, regardless of its source, is concerned, the city is a much larger consumer than the Street Railway. But, while the GROSS income derived from the city lighting contract is greater than that received from the Street Railway—

The contract with the latter corporation is one of the most important, if not THE most important, of this company's assets.

And for this reason: Some years ago, the Street Railway amended its charter, thus obtaining the right to change its motive power from horses to electricity. Its amended charter also gave it the right to acquire stock in an electric lighting company. As such a company was then in process of formation, the purport of this clause was perfectly clear.

It meant competition of a character most dangerous to the interests of the company and its stockholders.

This was eliminated by the purchase of the Street Railway by R. A. Cochran, W. H. Cox and Newton Cooper, who were, at that time, directors of the Gas company.

Instead of being a competitor, the Street Railway was thereby made a customer of the Gas company upon a basis that has enabled this company to reach its present efficiency in the electrical field.

For the power furnished the Street Railway, the amount paid is fair and equitable to both parties and compares more than favorably with the rate charged for the city lighting service. The Street Railway has always paid its power bills in cash.
